Fountain Faucet

Fountain Faucet

Product Model : FF21001

Constructed of a durable brass body
with plastic mouth guard
Lead-Free Brass material
3/8-18 NPSM Female thread
cUPC and AB1953 certified
Push button control
Replaceable cartridge

Product Model : FF21002

Constructed of a durable brass body
Lead-Free brass material
3/8" IPS connection
cUPC and AB1953 certified
Self-closing bubbler faucet

Product Model : FF21003

Hot Water Dispenser
Single-handle hot water dispenser with self-closing function
Single-hole deck mount
1-3/8 in hole size, with S/S braided hose
Neck Spout has a silicone tube inner design.
Lead-Free Solid Brass construction
Meets NSF 372 / NSF 61-9

Fountain Faucet

Product Model : FF21005

Hot Water Dispenser

Single-handle Hot water dispenser w/ Self-closing function
Single-hole deck mount 1-3/8 in hole size,
with stainless braided hose

Neck Spout has a silicone tube inner design

Lead-Free Solid Brass construction

Meets NSF 372 / NSF 61-9

Product Model : FF21007

8" Pure Water Dispenser with plastic spout tip

1/4 in compression tube inlet

Single black plastic handle

Spring piston handle assembly

Lead Free solid brass construction

Meets NSF 372 / NSF 61-9

Product Model : FF21011

Drinking Faucet for Cold Water Only

Single lever handle with 1/4 Turn ceramic disc cartridge.

1/4" Compression tube inlet

Traditional and classic design

Neck Spout has a silicone tube inner design

Compatible with most water filtration systems

Fits counter tops up to 2-1/2"

Fountain Faucet

Product Model : FF21012

Drinking Faucet for Cold Water Only

Single lever handle with 1/4 turn ceramic disc cartridge.

1/4" Compression tube inlet

Neck Spout has a silicone tube inner design and 360-degree rotation.

(be advised to design a limit 270-degree rotation after the installation)

Compatible with most water filtration systems

Fits counter tops up to 2- 1/2"

Product Model : FF21013

Design fountain faucet for Cold Water Only

Lead-Free Brass construction for durability and reliability

Single lever handle with 1/4 turn ceramic disc cartridge.

1/4 " Compression tube inlet

Neck Spout has a silicone tube inner design

Compatible with most water filtration systems

Fits counter tops up to 2-1/2"

Product Model : FF21014

Drinking Faucet for Hot Water Only

Single lever handle with 1/4 turn ceramic disc cartridge.

1/4" Compression tube inlet

Traditional and classic design w/ Self-closing Hot handle for safe

The brass spout has one more layer of NSF hose inside for scald prevention

Neck Spout has a silicone tube inner design and 360-degree rotation.

(be advised to design a limit 270-degree rotation after the installation) .

Fits counter tops up to 2-1/2"

Fountain Faucet

Product Model : FF21015

Drinking Faucet for Hot Water Only

Single lever handle with 1/4 turn ceramic disc cartridge

1/4" compression tube inlet

Self-closing hot handle for safe

The brass spout has one more layer of NSF hose inside for scald prevention

Neck Spout has a silicone tube inner design and 360-degree rotation.

(be advised to design a limit 270-degree rotation after the installation)

Fits counter tops up to 2-1/2"

Product Model : FF21016

Design fountain faucet for Hot Water Only

Lead-Free Solid Brass construction for durability and reliability

Single lever handle with 1/4-turn ceramic disc cartridge.

1/4 " compression tube inlet

Self-closing Hot handle for safe

The brass spout is with one more layer NSF hose inside for scald prevention

Neck Spout has a silicone tube inner design and 360-degree rotation.

(be advised to design a limit 270-degree rotation after the installation) .

Fits counter tops up to 2-1/2"

Product Model : FF21017

Hot & Cold drinking water faucet

Lead-Free Solid Brass construction

Dual handle design Self-closing Hot handle for safe

Traditional and classic design With three NSF inlet hose

Chrome plated and other special finishes are available

The brass spout has one more layer of NSF hose inside for scald prevention

Neck Spout has a silicone tube inner design and 360-degree rotation.

(be advised to design a limit 270-degree rotation after the installation)

Includes all mounting hardware

Fountain Faucet

Product Model : FF21018

Hot and Cold Drinking water faucet
Lead-Free Solid Brass construction
Durable handle design and Self-closing hot handle for safe
With three NSF inlet hose
Brass spout is with one more layer NSF hose inside for scald prevention
Neck Spout has a silicone tube inner design and 360-degree rotation.
(be advised to design a limit 270-degree rotation after the installation)
Includes all mounting hardware

Product Model : FF21019

Design fountain faucet for Hot and Cold water
Lead-Free Solid Brass for durability and reliability
Hot water handle with safe auto-off function
The internal ceramic disk provides smooth operation
Classical appearance coordinates well with traditional
Swivel brass spout with one more layer of NSF hose to prevent scald by Hot spout
Neck Spout has a silicone tube inner design and 360-degree rotation.
(be advised to design a limit 270-degree rotation after the installation)

Product Model : FF21020

6 in Pure Water Dispenser with plastic spout tip
1/4 in compression tube inlet
Single black plastic handle
Spring piston handle assembly
Lead Free solid brass construction
Meets NSF 372 / NSF 61-9

Fountain Faucet

Product Model : FF21021

6 in Lead Free Pure Water Dispenser
with brass spout tip
1/4 in compression tube inlet
Single black plastic handle
Spring piston handle assembly
Lead Free solid brass construction
Meets NSF 372 / NSF 61-9

Product Model : FF21022

Pure Water Dispenser with
45 degree long reach spout
1/4" compression tube inlet
Single black plastic handle
Spring piston handle assembly
Lead Free solid brass construction
Meets NSF 372 / NSF 61-9

Product Model : FF21023

Standard drinking water faucet with
long reach spout with brass spout tip
Fit reverse osmosis system
and water filtration systems
Durable lead free brass construction
Meets NSF 372 / NSF 61-9

Fountain Faucet

Product Model : FF21024

Classical Lever Handle Water Filter
Lead Free Brass construction
Quarter turn ceramic disk cartridge
10 inch high spout with swing function
For Cold water only
Fit for all kind of R/O water drinking system
Meets NSF 372 / NSF 61-9

Product Model : FF21025

Contemporary Water Dispenser with lever handle
Solid No-lead brass construction with lead free
1/4 turn ceramic disc cartridge
11 inch high spout with swing function
For Cold water only
Solid No-lead brass construction
Meets NSF 372 / NSF 61-9
Fit for all kind of R/O water drinking system

Product Model : FF21026

Contemporary lever handle drinking water faucet
Durable 1/4 turn ceramic disk cartridge
Long reach spout with swing function
For cold water only
Fit for all kind of R/O water drinking system
Meets NSF 372 / NSF 61-9

Fountain Faucet

Product Model : FF21027

Tulip Style Lever Handle Water Filter
Lead Free Brass construction
Quarter turn ceramic disk cartridge
Gooseneck spout with swing function
For Cold water only
Fit for all kind of R/O water drinking system
Meets NSF 372 / NSF 61-9

Product Model : FF22004

Hot & Cold Water Dispenser, Two handles water dispenser
Self-closing for Hot water handle
Single-hole deck mount, 1-3/8" hole size
With S/S braided hose
Lead-Free Solid Brass construction
Neck Spout has a silicone tube inner design and 360-degree rotation.
(be advised to design a limit 270-degree rotation after the installation)
Meets NSF 372 / NSF 61-9

Product Model : FF22006

Two handles Hot / Cold water dispenser
Self-closing for Hot water handle
Single-hole deck mount, 1-3/8" hole size
Neck Spout has a silicone tube inner design and 360-degree rotation.
(be advised to design a limit 270-degree rotation after the installation)
Lead-Free Solid Brass construction with S/S braided hose
Meets NSF 372 / NSF 61-9

Fountain Faucet

Product Model : FF51002

Contemporary Water Dispenser with lever handle
Solid No-lead brass construction with lead free
1/4 turn ceramic disc cartridge
11 inch high spout with swing function
For cold water only
Solid No-lead brass construction
Meets NSF 372 / NSF 61-9
Fit for all kind of R/O water drinking system

Product Model : FF51005

Brass design drinking water faucet
high quality brass material for durability and reliability
Quarter turn on / off water control mechanism
Swivel goose neck spout with brass nozzle
Metal cross handle for easy turn on / off
Fit reverse osmosis system and water filtration systems
Solid No-lead brass construction
Meets NSF 372 / NSF 61-9

Product Model : FF52010

Lead free brass design fountain faucet
1/4 turn on / off water control mechanism
Swivel goose neck with brass spout tip
Chrome plated and various finishes can be made
Comply with NSF 61-9 and NSF372
Use for reverse osmosis system and water filtration system.
